THE HOME TELEPHONE CO., A NEW ALBANY ENTERPRISE.

On June 10, 1896. about twenty business men of New Albany signed the Articles of Incorporation of the Home Telephone Company. Strange as it now seems, it was then true, that our city of 21,000 population had no local telephone service and our people were without this, one of the greatest conveniences of modern times.

It was to remedy this condition of affairs that the Home Telephone Company was organized by New Albany people with New Albany money.

The venture proved to be a complete success from the beginning, and for this the Home Telephone people have to thank the citizens of New Albany who have so loyally supported their friends and neighbors in an effort to push the city to the front.

This book contains the names of the present subscribers to the service of the Home Telephone Company and is the best list of intelligent, wide-awake citizens ever printed. You are to be congratulated upon being found in such company and the Home Telephone Company is proud of such a fine class of patrons.

INSTRUCTIONS TO SUBSCRIBERS.

The number of each subscriber's line is placed opposite his name in the alphabetical list of this directory, also the number of his ring in case there is more than one subscriber on the same wire.

To call the Central Office ring once before taking the receiver off the hook, then take the receiver and place it to your ear.

When the operator answers give the number and ring, if any, and continue to listen.

If the line is busy or out of order the operator will so inform you; if not you will be connected without further notice, and then if there is any delay it is because the person called failed to answer.

The operator knows whether the person called answers or not. If he does not answer in reasonable time he is called again; if he still fails to call the caller is notified.

When done talking hang up the receiver, ring one short ring to notify the operator that you are through talking.

Always hang your receiver on the hook when through talking, because if you do not you cannot be called; bells will not ring.

It is important for subscribers to answer their bells promptly. If they do not it is impossible to give rapid service.

When you go to the 'phone place the receiver to the ear and always speak to notify the party that called that you are at the 'phone.

To prevent misunderstandings give your name when commencing conversation and require your correspondent to do the same.

The use of profane or obscene language over our wires is strictly forbidden. Subscribers will be held responsible for the enforcement of this rule, and if such language is persistently indulged in, the telephone will be promptly removed.

Report any impoliteness or inattention on the part of operators to the Manager, No. 110. They are instructed to be polite under all circumstances and we expect the same courtesy extended to them.

If your service is interrupted report to Chief Operator. If not promptly remedied report the same to Manager by letter or by telephone, 110.

Subscribers who wish to have the location of their 'phones changed can have it done without charge by notifying Manager.

Anyone wishing to use the wire on pay line must give his name to operator whether subscriber or not so that operator can make proper charges.

Anyone wishing to be called at any hour of the night notify the operator and he will attend to it promptly.

Any inattention of officials please notify 103.

Direct connection with Telegraph, Express, Post Office, Banks, Railroads, Wharf Boat, Police, Fire Department, City Clerk, Treasurer, Court House and Poor Farm.

The extent of time for talking over toll lines is five minutes.

CHAS. B. KELLY & Co.

Shoe Making and Repairing.

Terms strictly Cash.
